

FIELD SERVICE TECHNICIAN

Are you an experienced Field Service Technician looking for a company where your skills are valued, your work makes an impact, and no two days are the same? Do you want to work for a great company with an even better team? If you answered “yes”, keep reading! We might just be looking for YOU to join our team!

Position Summary:

Alpha Controls is currently looking for a Field Service Technician to calibrate a variety of instrumentation on-site at our customer’s facilities, as well as in our Markham calibration lab. Using your technical knowledge and proper handling techniques, you’ll work on a broad range of precision instruments such as temperature/humidity probes and measuring devices, data loggers, multimeters, gauges, calibrators, and more. If you enjoy variety, solving technical challenges, and working directly with customers, you'll feel right at home here.

What you will be doing:

- Perform calibrations (temperature, pressure, electrical, etc.), troubleshoot issues and service a variety of instrumentation in the process & HVAC industries
- Perform equipment start-up and commissioning
- Deliver an outstanding customer experience with professional communication, technical expertise, and responsive support
- Follow all safety procedures and practices at all times
- Travel primarily throughout the Greater Toronto and Hamilton Area (approximately 80%), with occasional travel across Canada (approximately 20%)

Education and Experience:

- Instrumentation Technology Diploma or equivalent experience is a must!
- Minimum of 5 years of experience in calibration/service

What you bring to the table:

- Strong troubleshooting and analytical skills with the ability to solve technical problems efficiently
- Excellent verbal and written communication skills, along with solid computer skills
- Demonstrate initiative, with the ability to work independently, and be self-motivated
- Exceptional customer service – outgoing, friendly, team player, positive attitude
- Highly organized, detail oriented, and able to manage multiple priorities
- Ability to communicate clearly, concisely, and effectively with customers and co-workers
- Must have valid driver's license with a clean driving record

A Little Bit About us:

As a proudly Canadian, family-owned company, we've built our reputation on technical expertise, exceptional customer service, and the strong relationships we've developed with both our customers and our employees.

Today, we support organizations across North America by providing precision instrumentation, ISO/IEC 17025-accredited calibration, validation, equipment rentals, repairs, and ongoing technical support. Our customers trust us as their precision partner to help keep their operations accurate, compliant, and running smoothly.

For more than 45 years, our success has been built on great people. We'd love for you to be part of what's next.

Join Us!

There is so much more we would love to tell you about this role and our company, that doesn't fit in a two-page job posting. If we have piqued your interest, and you think you're the right fit, apply! We'd love to chat and share more with you.

We're a family-owned business that believes great people are at the heart of everything we do. We're more than just a place to work...we're family. Your experience is important to us, but so is chemistry. We want the best for our team, AND our customers.

Come be part of the Alpha Controls family! Apply now.
